**Subject: Subcontract Agreement No.05 – Supply and Install Cellular Grout Backfill;**  
**Record-Setting Pumping Distance Achieved Underground**

Gentlemen:

We are pleased to confirm that on Thursday, 26 Mar 09 your crew successfully pumped low density cellular grout a distance in excess of 20,060 lineal feet in the East Tunnel – part of the Arrowhead Tunnels Project for the Metropolitan Water District of Southern California.

This achievement makes a significant contribution to the project and directly reduces the time needed to complete the final tunnel lining system.

We would like to congratulate your crews for this work and look forward to continuing successes on the Arrowhead Tunnels Project until completed.

Sincerely,

Brian Fulcher, P. Eng.  
Project Director
